

How are fixed markets positive?

12/18/19

Do Now:

1. Make a group of 3 Students
2. Guess how much lives each law saved.
 - a) Motorcycle Helmets [Must wear one]
 - b) Car Seatbelts [Every car must have one]
 - c) Clean Air Act [Reduces air pollution]
 - d) Cigarette Warning Label
 - e) Radar Testing [Yearly tests for radar equipment]
3. What is a law that if passed would save many lives?

Purpose of Fixed Markets

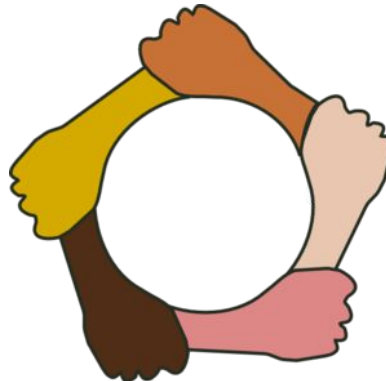

To Increase Safety & Equality

Activity I:

Goal: To determine how fixed market economics can help people.

Task: **(In Groups of 3-4)**

1. We will project free market problems on the board
2. In groups you will try to match one of your solutions with the problem then record the number on your worksheet. [some will not be used]

Time: [45 minutes]

A. Gas and electrical fires in retail stores are causing millions of dollars in damages

B. Almond farmers are causing massive droughts in Southern California

C. Waiters in restaurants rarely have enough money to pay their basic costs of living

D. Retired people are often forced out of their homes because their rents skyrocket every year

E. Faulty machines in automobile factories are causing significant workplace injuries

F. Chemical factories keep
accidentally spilling small amounts of
poisonous material in waterway

G. Millions of people in America cannot afford healthcare.

H. Children keep choking on pieces found in toys that are less than 1 centimeter in length

I Some hand lotions cause people with specific allergies to break out in painful rashes

J. Dogs are continuously dying from ingesting fertilizers used in public parks

K. Tall buildings in San Francisco are constantly getting completely destroyed by earthquakes

L. Children are consistently psychologically traumatized by horror movies with violence

M. There are thousands of cases of assault and sexual assault of college students every year

N. Colleges are too expensive and people cannot afford them

O. Thousands of pounds of illegal drugs are smuggled into the United States every year

P. There are hundreds of ships that crash every year due to errors made by the captains

Q. Older doctors keep using dated
medical practices causing
unnecessary injuries and deaths

R. Buffalo are now an endangered species in America

S. Schools in America are underfunded and do not have enough resources

T. Alcohol poisoning causes thousands of deaths every year

U. Children use cough syrup to get high which causes brain damage

V. Millions of people get food poisoning from restaurants every year

W. Millions of Americans are obese and die due to poor diets

X. Thousands of people die from
gun related causes every year

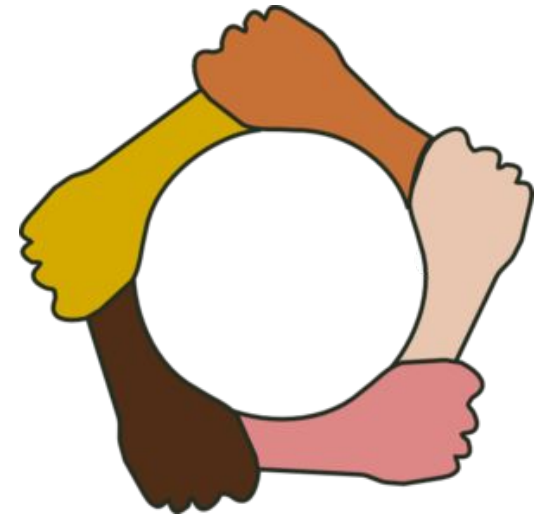

Y. The air pollution from cars in some major cities are causing lung diseases

Z. Schools are filled with asbestos, which is a dangerous materials

How Did You Do?

To Increase Safety & Equality

*

A. Gas and electrical fires in retail stores are causing millions of dollars in damages
