

Planning an International Trip Questions

Name: _____ Date: _____

Directions: You have \$1,500 to spend over and above your airline ticket to visit a foreign country. Narrow your choices to three countries and calculate the exchange rates for each country. Determine which of the three countries would be the best vacation destination (based on where your money would be worth the most).

Country 1: _____
Current Exchange Rate: _____
My \$1,500 is equal to _____ in their country.

Country 2: _____
Current Exchange Rate: _____
My \$1,500 is equal to _____ in their country.

Country 3: _____
Current Exchange Rate: _____
My \$1,500 is equal to _____ in their country.

Which country is the best bet for your money? _____
Why? _____
